James - I played through the sim a few times and there seems to be a missing email from the superintendent to the board chair early in the sim that lets her know that the prom went well (before the call from Jackson Saturday morning). This doesn't come up with the production version either but it's referenced later in the sim and it's an important event. If you can correct this in the Trustee version when you do the 300/email swap, that would be great.

Essentially, you just need to add a screen between the email from Jackson Friday night saying the prom went off without a hitch and the screen where she calls you to let you know about the incident. When you move the email from Carole (410 to replace screen 300) can you insert screen 310 before you bring up 320 with the following text:?

You promised Board Chair, Sandy Walters that you would email her Friday night, regardless of the time with an update on the prom. You let her know that the prom went off without a hitch and that you are looking forward to seeing her at graduation that upcoming Thursday.

Also - PLEASE change the email text as indicated below. There would never be a situation in an independent school that a divisional head wouldn't see the head of school until Thursday when school's in session.

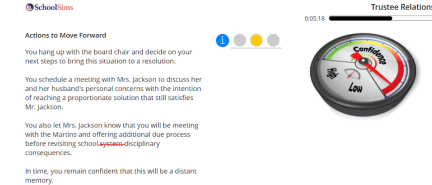

Other minor edits:

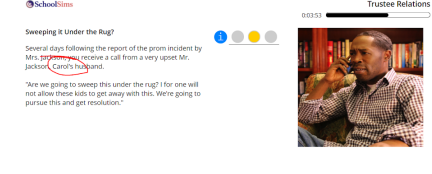

Screen 320 - change Ms. to Mrs.

Screen 5500 - remove the word "system"

Screen 1650, add an 'e' to the end of Carol (Carole)

Please send me the updated link as soon as it's ready. I have a meeting with Chris on Wednesday so I would like to get this to him to play over the weekend if at all possible. If not, first thing Monday would be amazing as well.

Thanks so much! MP

Sincerely,
Mary Pat Fralick, Chief Operating Officer

Here you go, MP: https://edsimspd.com/Independent/TrusteeRelations_210430b/

Proof attached. Edits and fixes made, although I could not fix an issue with the Scorecard which does not display the Credibility score properly in the report at the end. That wasn't on your list, but I'd like to get Chad's input to get that one straightened out.

As Carole says in her revised email, "Have a great weekend." :-)
